EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears bellow. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as proved by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.
2. Formal Drawings are required to be submitted.
3. Authorization for this Examiner's Amendment was given in a telephone interview with Mr. Jack Schwartz (Reg. No. 34,721) on May 17, 2007.

In the Claims:

Please amend claims 9 and 14 as follow:

Claim 9. (Currently Amended) A method for sharing information in a network, comprising steps of:

recording a data segment defined by one of a plurality of users at a first location;
transmitting information other than said recorded data segment identifying said recorded data segment, to a remote location, said information being data other than the recorded data segment and said transmission precluding the transmission of said recorded data segment; and

receiving from a second of the plurality of users, information identifying a defined

Art Unit: 2154

data segment within said recorded data segment, other than said defined data segment within said recorded data and precluding the transmission of the recorded data.

Claim 14. (Currently Amended) An apparatus, comprising:

means for storing a data segment in accordance with inputs from a first user at a first of a plurality of user systems connected to a network;

means for transmitting first information identifying the stored data segment, other than the data segment, to a remote location from the first of the plurality of user systems connected to the network, said transmitting precluding the transmission of the stored data segment ; and

means for receiving second information from a second of the plurality of systems connected to the network, identifying a data segment defined by a second user within the data segment stored at the first of the plurality of user systems connected to the network, said second information being other than the data segment and precluding the transmission of the data segment.

Reasons for allowance

4. The following is an examiner's statement of reasons for allowance:

Applicant's claimed invention distinguished over the prior art for the following reasons. The claims are allowable over the prior art of record because none of the references, either alone or in combination, discloses or renders obvious the method for sharing information in a network, comprising steps of recording a data segment defined
